

Full Stack Development with MERN

Project Documentation format

1. Introduction

• **Project Title:** Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

• **Team Members:**

1. P. Arockia Preetha [Member]
2. M. Athifa Nisha [Member]
3. S.U.F. Ayesha Razeen [Member]
4. U. Ayisha Hazana [Member]
5. S. Fahmeetha [Team Leader]

2. Project Overview

• **Purpose:** Briefly describe the purpose and goals of the project. •

Features: Highlight key features and functionalities.

3. Architecture

• **Frontend:** Describe the frontend architecture using React.

• **Backend:** Outline the backend architecture using Node.js and Express.js. •

Database: Detail the database schema and interactions with MongoDB.

4. Setup Instructions

• **Prerequisites:** List software dependencies (e.g., Node.js, MongoDB). •

Installation: Step-by-step guide to clone, install dependencies, and set up the environment variables.

5. Folder Structure

• **Client:** Describe the structure of the React frontend.

• **Server:** Explain the organization of the Node.js backend.

6. Running the Application

• Provide commands to start the frontend and backend servers locally. ○

Frontend: `npm start` in the client directory.

○ **Backend:** `npm start` in the server directory.

7. API Documentation

- Document all endpoints exposed by the backend.
- Include request methods, parameters, and example responses.

8. Authentication

- Explain how authentication and authorization are handled in the project. • Include details about tokens, sessions, or any other methods used.

9. User Interface

- Provide screenshots or GIFs showcasing different UI features.

10. Testing

- Describe the testing strategy and tools used.

11. Screenshots or Demo

- Provide screenshots or a link to a demo to showcase the application.

12. Known Issues

- Document any known bugs or issues that users or developers should be aware of.

13. Future Enhancements

- Outline potential future features or improvements that could be made to the project.
